# The world's most memorable "China-US friendly cooperation story"

Author: Temple on 2025-1-2 03:03 Posted in the most lively Chinese social network - Shell Village
Author's Category: Beauty Forum | | Common category: Hot talk | | There are 2 comments.
Keywords: Most Unforgettable, Sino-US Friendship, Cooperation Story

分享到微信

The most memorable “"China-US friendly cooperation story" described in this article refers to the unique or unparalleled love , story of two great powers, regardless of age. On Christmas Day 2024, , China's largest state media (People's Daily and Global Times) launched the "China-US Friendship and Cooperation Story" essay advertisement , to solicit works from all groups and individuals at home and abroad. The deadline for submission is June 20, 2025. At about the same time, , China unilaterally opened up to 10 days of visa-free entry to U.S. citizens. The news came out, ,, many overseas Chinese rushed to tell each other, cheering; and another group of long-term hustle and bustle of "anti-American patriotism" people, , they beat their chests and , wailed. 2024 , is a magical year! If Beijing can really find or accept the most memorable “"China-US friendly cooperation story", it is a great blessing for mankind in 2025.

As a blogger who loves travel and love stories, ,I am excited about the essay “China-US Friendship and Cooperation Story”. The first is the courage to launch the essay, the courage and the speed of the turn, , which is faster than the dramatic change of face in Sichuan, ,which is breathtaking. ”, In the dream of the great change that has not happened in a hundred years, what magical things will not happen? I want to write several chapters that celebrate the history of China-US friendship, , and I am afraid , that the pen and ink will

not be dried up, and I will become a joke of netizens or a ""hostile force overseas against China." Fortunately, if I knock on the keyboard in the free world, , or else the “lawsuit of "divulging state secrets" or "national security" is , not an empty joy?

In fact, everyone wants to ask, ,who is the audience of this essay? Is it written for smart people,, stupid people or hypocrites to sexual people? Or to the people of mainland China? What do Americans see or what Trump sees? Or write to everyone in the world? I speculated about the "holy will", assuming that it was the latter,, because Xi wanted to establish a "community of human ”destiny"! Of course, to mind the world, , look to the future, , this story must be forever.

Quietly, ,like several Janes, , the story of the friendship between China and the United States is really indescribable. On February 22, 1784,“, the "Queen of China" set sail from New York and arrived in Guangzhou, the Qing Empire, five months later, becoming the first ship to arrive in China after becoming a state of the United States,, and the friendship or friction between China and the United States began to set sail.

More than a hundred years later,, people in China understand the United States in a vague haze. The great leader, the Empress Dowager Cixi, set the tone for the relations between China and the United States, , and became all the true and false emperors in the land of China, , no matter what the socialist ideology was called, , the motto of day and night. The old man realized forward-looking, ,although the United States tried to help China, , such as running a school to open a hospital not an inch of land, ,but the United States exported freedom, equality, ,republic and constitutionalism and other modern human civilization values will make the court's life, , so in any case, the United States is the great enemy of the Forbidden City; on the contrary, Russia,, although it wants money to land, ,but also the people's life, appetite is great., But as long as the court is obedient and ,obedient and sends everything you need,, the imperial power will always be safe! So there is ""China-Russia friendship without limit", , of course, the "friendship story", ”,Beijing is endless, ,endless, , why do you need to write such a nest out of the world, , causing people to laugh?

The United States believes that the CCP and Mao's 401940s propaganda for American democratic freedom and the founding promise of democracy and democracy have , abandoned the national government of corrupt and authoritarian rule. Let the United States trade with China and all aid since 1784,. The average Chinese must not forget and tolerate the “eight-nation coalition” in Beijing, , including thousands of Americans who came to China. But ,the people of the mainland know very little about the causes and consequences of what happened. According to records, ,the people of Beijing welcomed the coalition forces, ,sent food and led the way, ,and the story of loving the people and the army also happened a lot. The people of the Forbidden City have always been afraid that you know the truth of things. Therefore,, this most memorable story , must be told from here.

Returning to the Empress Dowager Cixi, , she declared war on the 11 countries, ,detained embassy personnel, ,and secretly encouraged the mob to kill missionaries and family children: "Killing a foreigner and rewarding fifty-two, forty-two foreign women, and thirty-two foreign children." In addition,, on the grounds of the security of the national court, spies or spies were everywhere, , killing tens of thousands of innocent domestic civil servants.

These medieval barbarisms that undermined the international order , provoked the indignation of all the civilized nations of the time and triggered international rescue operations. In the park of the city where I live, ,there are monuments built by people who have sacrificed for overseas rescue operations. Interested netizens searching for wikis, it is not difficult to find the whole real process of this story.

The big clear is vulnerable, ,all is a shotgun, ,and in the end it can only be surrendered and conceded. The actions of the eight-nation coalition were concluded with the signing of the Treaty of Ugly by the Qing government and the 11-nation state; the text of the treaty and the 19 items of the annex were officially signed on September 7, 1901, providing for the Qing government to pay 45 million silver and 250 million yuan (in the Chinese population at that time), with an annual interest of 4 cents, and 39 years to pay, a total of 982 million or more than two million, to China's customs duties and salt taxes as a guarantee.“” “

For the use of "Gongzi reparations", the United States has made an unexpected example for all Chinese, and almost all of the compensation eventually returned to the ordinary people. Various foundations have been established, and legal procedures have been used to ensure assistance and support to China. The actions of the United States have also led to the wide participation of other countries or charitable organizations, and hundreds of top universities and hospitals have blossomed in mainland China, benefiting generations and laying a solid foundation for China's move toward modern civilization. If you only look at the mainland media, especially in the past five years, you may be misled by some false information. These people are not the description at the beginning of the above-mentioned essay, and their hearts are "the death of my heart is not dead", ,they deny or distort history, , and they dare to make any rumor. Because their organizations have not yet decided to turn their faces to “"China-US friendship", where do you dare to move?

In March 1906, the American missionary Min En-Pu sent to U.S. President Theodore..Roosevelt suggested that the education in China be used to pay compensation for education in China and to support Chinese students to study in the United States. Roosevelt adopted this proposal and offered to Congress a message of sponsorship of Chinese education. On May 25, 1908, the United States Congress passed the resolution.” On December 3, 1907, the President of the United States, in his message to Congress, asked Congress to authorize the return of money for education in China, and sent students to the United States as one of the ways. The proposal will be adopted in the United States. In 1908, the President of the United States signed a bill to refund $11.6 million, which won a wave of praise in American public opinion. In 1924, the United States Congress passed a resolution to refund the remaining compensation.”

The detailed record of the Tsinghua Alumni Association is as follows: "The United States has made more than 32 million yuan in compensation, equivalent to more than 24 million US dollars. The refund was twice, and the compensation was refunded in 1908 of 11.6 million US dollars, mainly for students in the United States and the establishment of Tsinghua Academy. At that time, it was agreed that the purpose of sending Chinese students to major universities in the United States for further study; the creation of Tsinghua School (later renamed Tsinghua School)) as a preparatory school for Chinese students to study in the United States; and setting up a supervision office for students in the United States in Washington to formulate specific measures for sending students to the United

States. In 1924, the second refund of the compensation of 125.45 million US dollars, and the establishment of “the "Chinese Cultural and Educational Promotion Foundation" (or “"China ”)Foundation"), the Beiyang government appointed a trusteeship of 10 Chinese and 5 Americans to manage the fund, a considerable part of which was provided to Tsinghua Academy on a scholarship basis.

After the incident, a group of far-sighted Western intellectuals realized that the brutality of the Boxer League was due to ignorance, superstition, and uncivilized results. They may not have seen the operation of the government behind it and the charm of the Tian Dynasty culture. Most Americans at that time had the Christian ideal of spreading the gospel. Since the end of the Qing Dynasty, a group of missionaries have traveled from the United States or Europe to strange China, and built a large number of churches, schools and hospitals. Chinese Medical Foundation It was founded in 1914. It belonged to the Rockefeller Foundation, which spent huge sums of money to create the Concorde Hospital (1914-1951) in Beijing, which produced a large elite of modern Chinese medicine, and its funding was forced to terminate in 1951 for political reasons.

Many people may be asking, since the Chinese Medical Foundation is regulated by law, where ,did it go after 1951, or has it closed down, or been embezzled? The fact is that it has been supporting medical advances in Hong Kong and Taiwan and Southeast Asia. It returned to mainland China again in 1980 and has funded 28 medical schools. Hundreds of medical talents rely on its financial support to study or study abroad, which has led to the development of Chinese biomedical science and its integration with the world.

After entering the 1990s, all kinds of medical schools in the United States were open to China, and a large amount of scientific research funds began to allow Chinese medical institutions and individuals to apply, including famous institutions such as the National Institutes of Health (NIH). In 1999, China applied to the NIH to join the Human Genome Research Program, becoming the sixth country to join the organization after the United States, Britain, Japan, Germany and France. On November 10, 1999, under the start of the U.S. personnel, ,the entire project was completed 1% of the sequencing work, ,that is, the working sketch of 30 million base pairs on human chromosome 3. China’s participation in the Human Genome Project is significant. In addition to making the program more broadly representative, the move has also become the starting point for large-scale international research cooperation in the life sciences, marking the beginning of China's bioscience research among the international forefront.

The above can only be an example of countless cooperation between the two countries. Although it has a long history, if the whole world understands and agrees with the great Sino-US cooperation,, I am afraid that the strong people will still be difficult. At this point, , we must return to the theme of this article: What is the most memorable story of China-US friendly cooperation in the world?

If you have normal rational thinking, ,the three views are correct and the normal people who have not been brainwashed by too much sauce tank culture, , I will agree with the following argument. None of them, it is the , plague of a century of the great plague that occurred in Wuhan in 2019 or that hit the world and killed millions of people. I suspect that the current essay organizers in Beijing are reluctant to see such a theme, but I believe that history will

make a fair evaluation and judgment, although the fact is clear that the timetable is not in the author's grasp, but most of the netizens will be witnesses to history.

During the epidemic, with the assistance of experts, I published a number of analytical articles on the causes of the new coronavirus, epidemics and vaccine research. It may also be one of the first bloggers to reveal to the public the "story of China-US friendly cooperation" in the new crown study based on scientific literature. One of the more direct articles is (Nature magazine leaked the origin of the new coronavirus).

According to the 2013 issue of Nature, Completed by three people (note *), according to the practice of the person in charge of the final, named the corresponding author of Shi Zhengli. The Chinese translation reads: "Separating and identifying SARS-like bat coronavirus, The virus applies the ACE2 receptor.” Note that the current Wuhan pneumonia virus directly attacks humans, it is the ACE2 receptor." Undoubtedly, in 2013, Shi Zhengli achieved great success in this major and also attracted many colleagues as collaborators to continue her new coronavirus research. Many people do not want to mention the first article of the above stone "Nature" magazine article, I just want to talk about natural medicine. In this way, it seems that the virus is mostly done by Americans, although the title of the article is to warn of the harm of the new coronavirus. But the first Nature article is the basis for the second article, and the second is a follow-up to the “source of the virus.” Therefore, the first article quoted in the second "Natural Medicine" is the 2013 article of Shi Zhengli "Separating and Identification of SARS-like bat coronavirus, the virus uses ACE2 receptors." Interested netizens can continue to refer to the full text of the introduction.

“The "story of China-US friendly cooperation" has caused a great disaster for mankind,, which is an undeniable fact. The truth about the cause of the incident ,is still being hidden and covered up by certain forces. From the above scientific paper,, it can be seen that the initial intention of scientists is to "early warn of the harm of the new coronavirus", but they underestimate the black hands behind the evil forces and the manipulation of evil forces. There is little doubt that the NIH lacks serious qualification assessment and supervision of partners,, and indiscriminately grants. The recipient,, knowing that there are black hands in the military behind it, ,deliberately deceived the cooperative party,, and then tried to blame and ,cover up the truth of the epidemic. Eventually, the new coronavirus spread to the whole world,, triggering the global plague.

During President Trump’s first term,, directly calling the virus from China ,is an objective description based on facts. Some Chinese,, think that they hurt themselves,, but also participated in the throwing pot blame campaign,, please count which onion? ,The Spring and Autumn Dreams of the Court, what do you do? In fact,, the Chinese people and overseas Chinese are also innocent victims , and should not become martyrs of the imperial court. There is no doubt that ,the United States also has people who sell their souls for money or profit,, and they have always cooperated with various evil forces. On December 15, 2024,, the British Sun reported that since October 2019, the Joint Chiefs of Staff ,of the United States has repeatedly reported that the virus has leaked in the Chinese P4 biological laboratory in Wuhan, and the news has been suppressed. But when information is open, ,most people are bound by the law,, and the truth will eventually be revealed or tried.

The arrival of the New Year 2025 ,will make the world feel uncomfortable and unforgettable,, because Trump is re-elected, , and the time is ripe to thoroughly investigate the truth of the plague virus. The report of the US Congress on the virus came out, ,and the World Health Organization also began to force up to demand that Beijing provide the truth about the initial plague, ,and seeing that China and the United States were no longer friendly and cooperative, ,and the life of the court might be thrown out by Russia, ,so the petition should be quickly released. It is useless to say that friendly cooperation is useless, ,and ordinary Chinese are not equal to the party that makes the virus, ,and separating and saying goodbye to evil ,is the common civilization value of mankind. ,New Year's Eve, if you agree with the unforgettable story of this article,, please pay attention to the next article "the world's most touching ""China-US friendly cooperation story">.

You mentioned a lot of important issues, slowly digested. After the incident, a group of forward-looking Western intellectuals realized that the brutality of the Boxer League was due to ignorance, superstition, and unopened people's wisdom. They may not have seen the operation of the government behind it and the charm of the Tian Dynasty culture. Most Americans at that time had the Christian ideal of spreading the gospel.

Just finished watching the movie (not the American description, but there are many stories like this). https://www.youtube.com/watch?v=enrCzk8ZT9U&ab_channel=JamesXi
